What was the best part of this Service-Learning Day event? (e.g., panel discussion, roundtable discussions, keynote)

Last year, SL Day concentrated on local community needs, and this year we're focusing on promoting and problematizing relationships with the community. What is your preference for the focus of our next SL Day?

What would you change/add/delete for future Service-Learning Day events?

What additional information or support do you need to improve or implement service-learning for your course or agency?
